What City Officials Need To Know About Cybersecurity:

Join us to participate in interactive case studies and to hear from an expert panel of subject matter experts on the following:

- | The evolving legal cyber risk landscape
- | Tactics of hackers from high-profile breaches
- | Common myths of Cybersecurity
- | Critical elements in a successful cyber program
- | Interactive actions to increase cyber resiliency
- | 10 Best Practices for Cybersecurity in 2018:
 - Assess your Risk
 - Educate and Train Your Users
 - Maintain Compliance
 - Create Specific Access Controls
 - Maintain Security Patches
 - Monitor Applications with Access to Data
 - Back up your Data
 - Know Your Vendors
 - Beware of Social Engineering
 - Create a Data Breach Response Plan

Presenters and Panelists include:

- | **Charles Brad Leopard**, Assistant to the Special Agent in Charge, U.S. Secret Service, Cybersecurity Office
- | **Lars M. Schmekel**, Chief Security Officer, Miami-Dade County
- | **Michael Capote**, Partner, ProPrivatus

As well as other invited leaders from the FBI Cybersecurity Office, municipal and county CIO's and private sector IT and Cybersecurity experts.

Free for MDCCMA members
\$50 for non-MDCCMA members
